

Dunes Learning Center Internships

Starting June 2022
Summer and Full Year Options

**WORK INSIDE
INDIANA DUNES
NATIONAL PARK!**

Dunes Learning Center is the nonprofit education partner of Indiana Dunes National Park. Since 1998, more than 165,000 students from diverse communities and backgrounds have participated in our programs to discover, learn, explore, and reflect on the science and wonder of nature. For many, Dunes Learning Center is the gateway to Indiana Dunes National Park and the beginning of their environmental science education. These experiences inspire students to be the stewards of tomorrow!

Full Year Internships

Develop your naturalist, outdoor education, and resource interpretation skills and techniques through this 12-month (June-May) program that offers intensive training in partnership with the National Park Service. As a member of the program delivery team, you will teach children and adults about the diversity of ecosystems, plants and animals, and the cultural history of Indiana Dunes National Park and the southern Lake Michigan region. Interpretive Naturalists work on campus; Outreach Educators work in the community and schools. (College Graduates)

Summer Internship

Develop outdoor education skills while providing meaningful experiences for campers during summer camp. You'll have the opportunity to shadow National Park Service rangers and naturalists during the day, while you supervise campers overnight in your cabin and lead activities including meals, flag raising, campfires, games, and hikes. (Age 18+, enrolled in a college program)

Interns receive a stipend, housing, meals, and weekly s'mores. For details about these and other jobs available at Dunes Learning center, visit: **DunesLearningCenter.org/employment**

*We serve a diverse community and seek a diverse workforce.
Dunes Learning Center is an equal opportunity provider and does not discriminate.*
